## Standard Kits

### 10' Wall
- Horizontal = 6  
- Top Vertical = 4  
- Bottom Vertical = 4  
- Cross/Hanging = 3  
- Feet = 2

### 20' Wall
- Horizontal = 12  
- Top Vertical = 7  
- Bottom Vertical = 7  
- Cross/Hanging = 6  
- Feet = 4
Component Identification

- Vertical Pole Top
- Vertical Pole Bottom
- Horizontal
- Cross/Hanging Bar
- Amplify Shelf Package Single
- Amplify Foot
- Corner Bracket w/ Thumb Screws
- Amplify Monitor Mount
- Amplify Peg Board
- Corner Post
- Double Sided Monitor Mount Adaptor Brackets
- LED Arm Light
- Heavy Duty Foot
- Wire Management Clip
- End Cap
Assembly

Base & Foot Assembly

1. Identify foot and horizontal tube.
2. Align through hole in horizontal tube with silver protrusion on top of foot and place horizontal tube onto foot.
3. Engage thumbscrew through hole in horizontal tube into foot and turn right until tight.

Bottom Frame Vertical Installation

1. Identify bottom vertical poles.
2. Open lever handle on end of horizontal tube by pulling outward.
3. Insert end of horizontal tube perpendicularly into end of bottom vertical pole, and align so both tubes are flush.
4. Secure joint by pushing level handle back inward.
Top Frame Vertical Installation

1. Locate top vertical poles and stack openside of tube into bottom vertical.

Top Horizontal Installation

1. Identity horizontal tubes.
2. Open lever handle on end of horizontal tube by pulling outward.
3. Insert end of horizontal tube perpendicularly into end of top vertical pole, and align so both tubes are flush.
4. Secure joint by pushing lever handle back inward.
Continue Building

1. Repeat previous steps until your wall is complete.

Cross/Hanger Bar Installation

1. Identify cross/hanging bars.
2. Insert one end of cross/hanging bar into side hole of vertical pole.
3. Pivot opposite end of spanner into adjacent vertical pole.

Repeat this step for all cells.
Fabric Panel

Fabric Installation

1. Start at the corners of the assembly. Work the FlexLock™ edge of the panel into the extrusion at each corner.
2. Press the FlexLock™ edge of the panel into the extrusion near the middle of each extrusion.
3. Work the panel into the extrusion from the corners inward and the middle outward.
4. To Dismantle, lay frame assembly on floor covered with clean drop cloth provided. To help reduce wrinkling, carefully fold fabric panel and pack into fabric panel storage bag.

* Note: These options must be identified before your graphic is produced for appropriate fabric tension and appearance and may be different on each graphic side.

** Note: If graphic is difficult to install, remove cross/hanger bar(s), install graphic and replace cross/hanger bar(s).
Tradewinds Amplify™ Display System Instructions

**Accessories**

- Peg Board
- Monitor Mount
- Shelf
- Corner Connectors
- Led Arm Light
- Wire management clip
- Heavy Duty Foot
- Corner Post
- Half Foot
- Full Foot
- End Cap
- Wire management clip
- Corner Connectors

**Shelf**

1. 
2. 

**Monitor Mount**

1. 
2. 
3. 

**Peg Board**

1. 
2. 

**Wire Management Clip**

1. 
2. 
3.

Double Sided Monitor Mount

1. Identify standard monitor mount, adaptor brace, washer/stud assembly and wing nut.
2. Fasten adaptor brace to back of the monitor mount using washer/stud assembly and wing nut. The adaptor brace should be level with the monitor mount.

3. Identify monitor mounting hooks.
4. Fasten monitor mounting hooks to monitor by screw hooks into the holes in the back of the monitor.

5. Install standard monitor mount with adaptor brace onto the back of the frame (see page 7).
6. Rest mounting hooks on installed monitor mount. Ensure hooks are fully seated on. A second monitor may be mounted on the opposite side by repeating steps 3-6.
Utility Case Table II

Amplify™ Display System

SETUP INSTRUCTIONS

1. Lift

2. Insert Fabric Panel
   - Bracket Extrusion
   - Graphic Side

3. Short Side Panel Shown

4. Once installed, lift end legs up and set down sharply to connection
