# Skyline Mirage® Accessories

Marquee Header

*The Marquee Header is a graphic
header designed to be backlit.
It can be backlit with either
incandescent Marquee Lights or
Flourescent Lightsticks.*

If you have **Marquee lights**
proceed to **Step 1**.

If you have a **Fluorescent
Lightstick** skip to **Step 3**
on page 18.

1

Marquee Lights Remove light
bulbs from protective foam covers.
Screw bulbs into light bar and
swivel hanging brackets up.

Protective cover

Hanging bracket

2

Hang light brackets over display
frame. Place cord over top of
display and plug into power strip.

Skip to **Step 5**.
