

Step 1.

For a mobile table place 2 cases side by side with the wheels facing the same direction. For a stationary table alternate the direction of the wheels.

Step 2.

Place connecting clip over the top of the case rims as shown in the illustration.

Step 3.

Place case covers on the top of the connected cases and secure cover locks.

Step 4.

Unfold table top support and place over the top of the secured case covers. Flush ends with edge of case.

Step 5.

Assemble panels in alphabetical order as shown in the illustration.
